ATLAS DEKO M

VISUALISATION, MOSAIC RENDER ATLAS DEKO M TM1, A1A1A1 + BROCADE

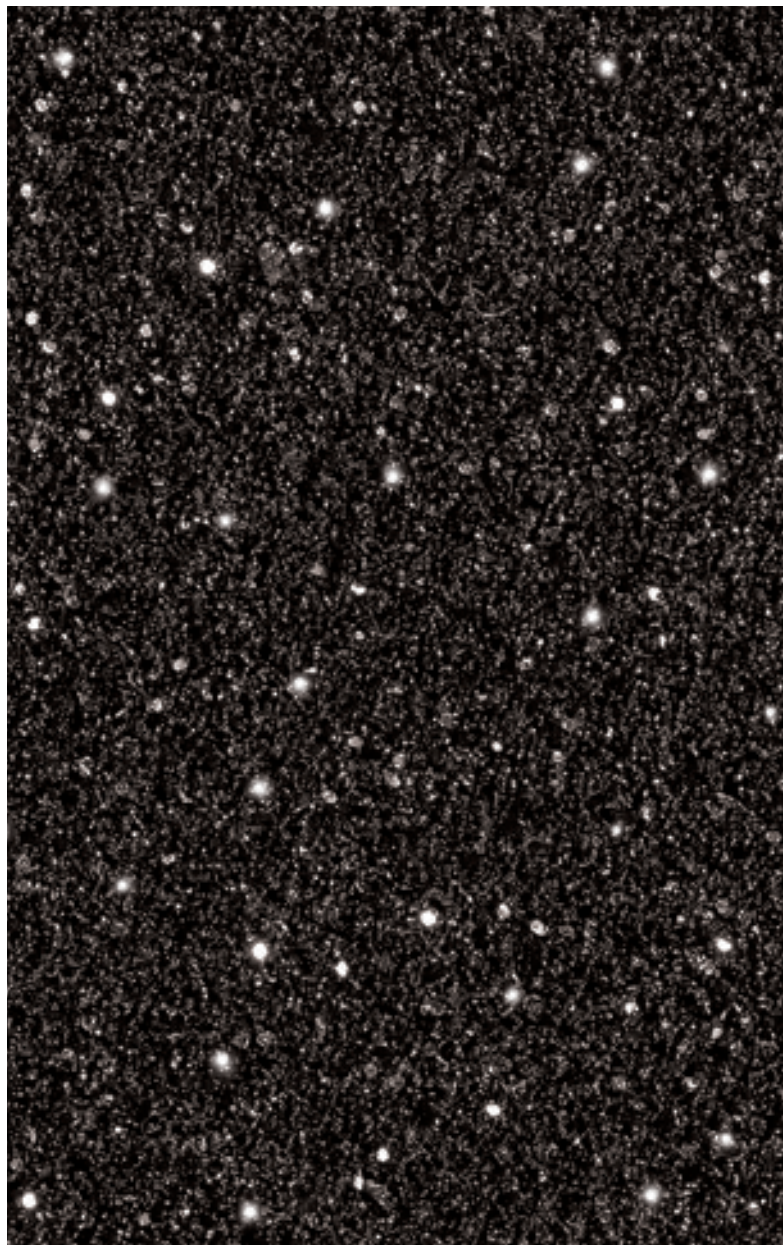

Mosaic top coats ATLAS DEKO M are modern thin-coat renders which can be widely used wherever one wants to combine extraordinary elegance and practicability.

Owing to resistance to mechanical damage ATLAS DEKO M is successfully applied on the most demanding surfaces: façade plinths, fences, in garages and staircases.

Unique recipe and up-to-date technologies used in ATLAS DEKO M composition ensure great hydrophobic performance, effect of façade self – cleaning and resistance to operational damage, soiling and negative action of atmospheric factors.

Colour compositions and aggregate size used for creation of ATLAS DEKO M renders allow to form durable and outstanding effect. Undeniable advantage of mosaic renders consists in their wide range of shades and easy usage. Note that it is advisable to choose ATLAS CERPLAST priming mass of appropriate colour for proper application of the render.

ATLAS DEKO M contains dyed quartz aggregate, natural shuttered aggregate and mineral additives. Depending on technique of application they give smooth uniform surface or come back to three – dimensional structure of quarried natural stone.

ATLAS DEKO M

ATLAS DEKO M render is available in five options.

STANDARD MOSAIC RENDER ATLAS DEKO M TM0

Basic mosaic render in ATLAS portfolio. Product is offered in three aggregate grain sizes: 0.6-1.2 mm, 1.0-1.6 mm and 1.4-2.0 mm. It is available in the form of

27 monocolour aggregates for individual preparation in a different ratio of sand types. Allows to create unlimited range of colour compositions. For preparation of individualized colour composition one can also use "ATLAS Mozaiker" application.

Additives: **SIC** – silicon carbide

FINE AGGREGATE MOSAIC RENDER ATLAS DEKO M TM1

Fine aggregate mosaic render characterised by reduced consumption. ATLAS DEKO M TM1 is distributed with aggregate grain size 0.2-0.8 mm. It is available in 120 colour compositions made of **8 monocolour** aggregates delivered for individual mixing.

Colours of aggregates:

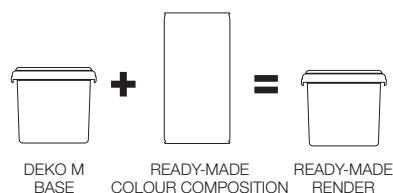

A1 – black/ A2 – white/ A3 – brick red/ A4 – brown/ A5 – sand/ A6 – grey/ A7 – silver/ A8 – earthy

Additives: **B** – silver brocade, **M** – black mica

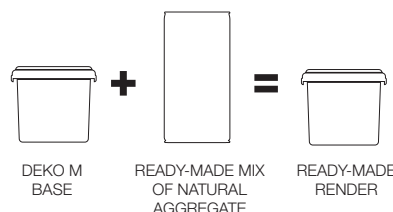

STANDARD MOSAIC RENDER ATLAS DEKO M TM3

Product for individual preparation available in 20 ready-made colour compositions. It is offered in three aggregate grain sizes: 0.6-1.2 mm, 1.0-1.6 mm and 1.4-2.0 mm depending on selected colour.

EFFECT OF STONE ATLAS DEKO M TM5

Product for individual preparation available in 13 ready-made colours inspired by natural stone beauty. Aggregate grain size 0.1-1.2 mm with decorative additives – silicon carbide and mica – in various colour and grain size compositions.

EFFECT OF SANDSTONE ATLAS DEKO M TM6

Fine aggregate mosaic render available in recommended colours dyed at ATLAS tinting systems. Aggregate grain size: 0.1-0.5 mm.
