

TENMAT Socket Box Inserts

Application

TENMAT Socket Box Inserts are designed to improve air tightness and maintain fire and acoustic protection for penetrations created by the introduction of both single and double recessed socket boxes in plasterboard partitions. The fire resistant mineral fibre socket box insert limits the passage of fire and smoke through the partition.

General benefits:

- Acoustic properties up to 67db
- Air leakage tested
- Improves air tightness of wall
- Ready to install, no moulding or trimming required
- Suitable for metal and plastic back boxes

Fire rating

Size	Socket Box Type	Fire rating Integrity/Insulation (minutes)
Single	35mm	120/120
Double	35mm	120/120
Single	47mm	120/120
Double	47mm	120/120
