Smoking rooms
Gymnasiums
Studios
Changing areas
Washrooms

The Flex Smart Range

Clear embarrassing odours quickly to keep all rooms clean & fresh

The FSR100 unit offers a rapid, mobile solution to odour issues, with many odours cleared in minutes.

Unpleasant lingering odours can leave some rooms unusable or create a negative impression which affects your company image and customer feedback. Attempting to mask odours with fragrances can make the area even more unpleasant.

Many odours are created from microorganisms, musty odours can indicate mould whereas unpleasant stale odours may be a warning sign of high levels of bacteria. Traditional cleaning and disinfecting will not eliminate odours, you cannot clean the air itself and even simple odours from food, illness or smoke can remain in an area for days if untreated. Methods such as fogging can increase damp issues or leave chemical residues, often meaning areas cannot be occupied for several hours once treated.

- Treat multiple areas with a single unit
- No chemical residue or moisture after treatment
- Area can be put back to full use within minutes
- Low maintenance, clean and lamp change once a year

Guideline Treatment Times To Clear 20m2

Body odour/stale air
15 minutes

Mild smoke odours/food odours
30 minutes

Sickness odours/incontinence odours
1 hour

Strong persistent odours*
4 hours plus

* Odours ingrained in fabrics or furnishing will require longer or repeated treatments to clear. Contact us for a specific guide.
